INDEPENDENT AUDITOR'S REPORT

To the Honorable Mayor and
Members of the City Council
City of Ionia
Ionia, Michigan

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Ionia, Michigan as of and for the year ended June 30, 2006, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Ionia, Michigan, as of June 30, 2006, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 21, 2006 on our consideration of the City of Ionia's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and budgetary comparison information, as identified in the table of contents, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise City of Ionia's basic financial statements. The accompanying other supplementary information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements. The other supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2006

The intent of the management's discussion and analysis is to provide highlights of the City of Ionia's financial activities for the fiscal year ended June 30, 2006. Readers are encouraged to read this section in conjunction with the transmittal letter and the accompanying basic financial statements.

FINANCIAL HIGHLIGHTS

Net Assets: The total assets of the City of Ionia did exceed its liabilities by \$17,248,013 (net assets). Restricted capital assets include \$581,688 from bond proceeds that are to be used in the FY 06-07 to pay for capital asset projects that have been bid but were not constructed at June 30, 2006, \$827,217 for future debt service payments, and other restrictions for streets and grant activities, resulting in an unrestricted net assets balance of \$1,864,309. Working capital, the difference between Current Assets and Current Liabilities, shows a positive cash flow to meet the City's ongoing obligations. Governmental activities net assets were \$9,246,048 and Business-type activity net assets were \$8,001,965. Component unit net assets were \$(5,727,710). It is typical for component units to have debt without a corresponding capital asset because the capital purchases/improvements are turned over to the governmental funds.

Unreserved Fund Balance: At the end of the current fiscal year, unreserved fund balances for City of Ionia's governmental funds were \$472,464, or 4.4% of total annual expenditures and other financing uses. The General Fund's fund balance decreased by \$199,116. Unreserved Fund Balance allows for fluctuations in cash flows.

Capital and Long-term Debt Activities: The governmental activities of the primary government issued new debt for the fiscal year for capital purchases of four (4) pick-up trucks. The business-type activities issued a \$1.5 million bond through the County Board of Public Works for utility improvements throughout the City.

OVERVIEW OF THE FINANCIAL STATEMENTS

The annual financial report of the City of Ionia consists of the following components: 1) Independent Auditors Report, 2) Management's Discussion and Analysis and 3) the Basic Financial Statements including notes to the financial statement, and 4) Required Supplementary Information such as budget to actual comparisons and Other Supplementary Information including combining financial statements for all nonmajor governmental funds and proprietary funds.

Government-wide Financial Statements

The set of government-wide financial statements are made up of the Statement of Net Assets and the Statement of Activities, which report information about the City of Ionia as a whole, and about its activities. Their purpose is to assist in answering the question, is the City of Ionia, in its entirety, better or worse off as a result of this fiscal year's activities? These statements, which include all non-fiduciary assets and liabilities, are reported on the accrual basis of accounting, similar to a private business. This means revenues are accounted for when they are earned and expenses are accounted for when incurred, regardless of when the actual cash is received or disbursed.

The Statement of Net Assets represents all the City of Ionia's assets and liabilities, recording the difference between the two as "net assets". Over time, increases or decreases in net assets measure whether the City's financial position is improving or deteriorating.

The Statement of Activities presents information showing how the City's net assets changed during FY 05-06. All changes in net assets are reported based on the period for which the underlying events giving rise to the change occurs, regardless of the timing of related cash flows.

Therefore, revenues and expenses are reported in these statements for some items that will only result in cash flows in future financial periods, such as uncollected taxes and earned but unused employee annual leave.

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2006

Both statements report the following activities:

Governmental Activities - Most of the City of Ionia's basic services are reported under this category. Taxes, charges for services and intergovernmental revenue primarily fund these services. Most of the City's general government departments such as Public Safety, the City Council, Public Works, and Recreation programs are reported under these activities. This also includes the activities such as the Major and Local Street maintenance.

Business-type Activities - These activities operate like private businesses. The City of Ionia charges fees to recover the cost of the services provided. The City's Water & Sewer Systems are considered business-type activities as well as the Theatre and Dial-A-Ride.

Discretely Presented Component Units - Discretely Presented Component Units are legally separate organizations for which the City Council appoints a majority of the organization's policy board and there is a degree of financial accountability to the City of Ionia. Organizations included as component units are the Downtown Development Authority and the Local Development Finance Authority.

As stated previously, the government-wide statements report on an *accrual* basis of accounting. However, the governmental funds report on a *modified accrual* basis. Under modified accrual accounting, revenues are recognized when they are measurable and available to pay obligations of the fiscal period; expenditures are recognized when they are due to be paid from available resources.

Because of the different basis of accounting between the fund statements (described below) and the government-wide statements, pages 4 and 6 present reconciliations between the two statement types.

Fund Financial Statements

The fund financial statements provide information on the City's significant (major) funds, and aggregated nonmajor funds. Traditional users of governmental financial statements will find the Fund Financial Statements presentation more familiar.

A fund is a fiscal and accounting entity with a self-balancing set of accounts that the City uses to keep track of specific sources of funding and spending for a particular purpose. State law or policy requires some separate funds, such as funds required by bond or grant agreements. Funds are also utilized to track specific operations; these include the internal services funds (Central Garage) as well as enterprise funds such as the Water & Sewer Funds.

The *basic financial statements* report major funds as defined by the Government Accounting Standards Board (GASB) in separate columns. Statement 34 defines a "major fund" as the General Fund, and any governmental or enterprise fund which has either total assets, total liabilities, total revenues or total expenditures/expenses that equal at least ten (10) percent of those categories for either the governmental funds or the enterprise funds *and* where the individual fund total also exceeds five (5) percent of those categories for governmental and enterprise funds combined. The major funds for City of Ionia include the General Fund, Grant Projects, Dial-A-Ride and the Water & Sewer Funds. All other funds are classified as nonmajor funds and are reported in aggregate by the applicable fund type. The City of Ionia includes detailed information on its nonmajor funds in other supplementary sections of this report.

The City of Ionia's funds are divided into three categories - governmental, proprietary, and fiduciary - and use different accounting approaches:

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2006

Governmental Funds - Most of the City's basic services are reported in the governmental funds. The focus of these funds is how cash and other financial assets that can be readily converted to cash, flow in and out during the course of the fiscal year and how the balances left at year-end are available for spending on future services. Consequently, the governmental fund financial statements provide a detailed *short-term* view that helps determine whether there are more or fewer financial resources that may be expended in the near future to finance the City of Ionia programs. Governmental funds include the *General Fund*, as well as *Special Revenue Funds* (use of fund balance is restricted), *Capital Projects Funds* (used to report major capital acquisitions and construction), and *Debt Service Funds* (accounts for resources used to pay long-term debt principal and interest).

Proprietary Funds - Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds use the same *accrual* basis of accounting used in the government-wide statements and by private business. There are two types of proprietary funds. *Enterprise funds* report activities that provide supplies and/or services to the general public. *Internal Service funds* report activities that provide supplies or service to the City of Ionia's other operations, such as the Central Garage Fund. Internal Service funds are reported as governmental activities on the government-wide statements.

Fiduciary Funds - The City of Ionia acts as a trustee or fiduciary in certain instances. The City's fiduciary activities are reported in separate statements of Fiduciary Net Assets on page 15. This fund is reported using the accrual basis of accounting. The government-wide statements *exclude* the fiduciary fund activities and balances because these assets are not available to the City of Ionia to fund its operations. The taxes that are collected during the year are paid to the taxing unit of government.

Notes to the Financial Statements

The Notes to the Financial Statements provide additional information that is essential to a full understanding of the detail provided in the government-wide and fund financial statements. The Notes can be found beginning on page 18 of this report.

Other Information

Following the Basic Financial Statements is additional Required Supplementary Information (RSI), which further explains and supports the information in the financial statements. RSI includes a budgetary comparison schedules for the General Fund.

Other Supplementary Information includes combining financial statements for nonmajor governmental funds, budgetary schedules for nonmajor Special Revenue Funds, and a detailed schedule of revenues, expenditures, and change in fund balance for the Grant Projects Fund. The nonmajor funds, except for the fiduciary funds, are added together, by fund type, and are presented in aggregate single columns in the appropriate basic financial statements.

FINANCIAL ANALYSIS OF THE CITY OF IONIA AS A WHOLE

The Statement of Net Assets and the Statement of Activities provide the information to determine how the City of Ionia did financially during FY 05-06. The net assets and the changes in them can indicate whether financial health is improving or deteriorating. However, other non-financial factors such as changes in economic conditions, and new or changed government legislation also need to be considered in determining the City's financial health.

In examining the composition of these net assets, the reader should note that governmental activities net assets are invested in capital assets (i.e., streets, buildings, land, vehicles, equipment, etc). These assets are used to provide services to the resident and they are not available to pay salaries, operational expenses, or fund capital projects.

Governmental Activities:

While the Statement of Net Assets shows the change in financial position of net assets, the Statement of Changes in Net Assets shows that the Primary Governmental operations had a reduction of net assets by a total of \$(501,121). During the year, the governmental activities had excess depreciation over capital outlay of \$880,521. While depreciation expense does not affect cash, it does affect the capital assets.

Revenues: The three largest revenue categories were Income Taxes at 24%, Operating Grants and Contributions at 21%, and Charges for Services at 18%. The City of Ionia implemented a City Income Tax in 1994. Residents (individual and business) pay 1% on net earnings, and Non-Residents pay ½%. The City reduced the 15 Operating mills of property tax to 3 mills once the income tax was approved. The 3 mills of operating and the income taxes are not assigned to any particular activity. In FY 04-05 and FY 05-06 the City levied 2 mills per PA 33, for maintaining Public Safety. This millage will also be collected on the 2006 winter tax bills.

Expenses: Public Works (roads and sidewalks) totaled \$2,054,304, or 29% of the total governmental activities expenses. General Government which includes fringe benefits (including Public Safety), administration, elections, code enforcement, trash pickup and building expenses was 25% of the total governmental activities expenses at \$1,801,926. Public Safety activities totaled \$2,477,640, or 35%, while Recreation and Cultural was \$490,271, or 7%.

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2006

Business-type Activities:

The Change in Net Assets for business-type activity shows an increase of \$787,259. This increase is primarily due to connection fees paid for water service by new development in neighboring townships. The City does not fund Depreciation expense in order to keep user fees reasonable for residents. This approach does require the use of bonds and loans in order to pay for capital improvements to assets, which ultimately ties the cost of improvements to the users of the improvements.

FINANCIAL ANALYSIS OF THE CITY OF IONIA MAJOR FUNDS

As the City of Ionia completed fiscal year 2006, its governmental funds reported *combined* decrease in fund balances of \$(187,626).

The net changes are summarized in the following chart:

	General Fund	Grant Projects	Nonmajor Governmental Funds
Fund Balance 6/30/05	\$ 558,026	\$ 28,633	\$ 154,468
Fund Balance 6/30/06	358,910	69,351	125,240
Net Change	\$(199,116)	\$ 40,718	\$(29,228)

General Fund: The General Fund is the chief operating fund of the City of Ionia. Unless otherwise required by statute, contractual agreement or Council policy, all City of Ionia revenues and expenditures are recorded in the General Fund. As of June 30, 2006, the General Fund reported an unreserved fund balance of \$353,992. This amount is a decrease of \$199,116 from the fund balance of \$558,026 reported as of June 30, 2005.

The General Fund fiscal year 2006 revenues exceeded expenditures by \$387,771. Transfers Out for use in the Recreation, Debt Services and Local Streets Funds utilized the budgeted excess.

General Fund Budgetary Highlights: General Fund revenues and other financing sources totaled \$5,066,540; \$215,565 less than the final amended budget. The difference is a 4.2% decrease from the final budget; the widest variation was in homeland security grant revenue. A portion of the reduction in the amount received was due to an over-estimation of income tax revenues.

The City of Ionia expenditures and other financing uses totaled \$5,265,656; \$101,824 less than the final amended budget. Expenditures were lower than anticipated due primarily to an over-estimation of the amount to be spent implementing the Homeland Security Grant

Grant Projects: The Grant Projects Fund received federal and state grants as well as contributions from the Sewer Fund, Water Fund, and the Ionia Area Sewage Disposal System to finance various capital projects. The most significant expenditures for this fund for the fiscal year ended June 30, 2006, were Washington, Stevenson, and Morse Street project and the High and Baldie Street project. These projects accounted for 72% of the total expenditures of the Grant Projects Fund.

Dial-A-Ride: The Dial-A-Ride (DAR) fund had an increase to its net assets of \$42,047. DAR's operating revenues were more than last year. Operating Expenses decreased by \$15,544 from the previous year.

Depreciation expense, of \$159,610 is a non-cash expense, which represents the reduction in the value of the facility and busses. Due to the nature of the DAR's capital improvement plan, this cost is not considered in the budget process because of the capital grants available through State and Federal Funding.

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2006

Water Fund: Net assets of the Water Fund increased by \$711,951. The source of this increase was twofold: first, increased connection fee revenue due to development in Berlin Township; and, second, increases in the water commodity and debt service charges effective July 1, 2005. Depreciation expense on the capital assets for the year was \$457,414. In the past seven years, the Water Fund has bonded for \$15,162,000 in water system improvements, including the most recent Utility Improvement Bond issued on May 1, 2006. The State of Michigan Department of Corrections is a major user of municipal water in the City and has committed to paying a significant portion of the outstanding water system debt service. Operating revenues increased by 25% from FY 04-05 due to a rate increase. Interest expense for the year increased by \$32,303.

Sewer Fund: The Sewer Fund had an increase to its net assets of \$72,741. The depreciation expense on the capital assets for the year was \$56,143. In the past seven years, the Sewer Fund has bonded for \$4,452,000 of sewer system improvements, including the most recent Utility Improvement Bond issued on May 1, 2006. As a major sewer user - the State of Michigan, Department of Corrections has committed to paying 69.44% of the debt on the 1976 & 1990 expansion of the treatment plant, which helps to keep rates at a reasonable level. Each spring a rate study is completed to determine the usage and debt service fee required to meet obligations. The most recent rate study proposed an increase in both the sewer commodity and debt service charges. Based on the study's recommendation, these two charges were increased on July 1, 2005.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At the end of Fiscal Year 05-06, the City of Ionia had invested \$12,765,786 and \$21,498,796 (net of accumulated depreciation) for governmental and business-type capital assets respectively. Accumulated depreciation was \$8,274,026 for the governmental activities and \$8,122,288 for the business-type activities. Depreciation charges for the fiscal year totaled \$1,046,731 for the governmental activities and \$711,636 for the business-type activities. For more detailed information related to capital assets, refer to Note F to the financial statements.

Long-term Debt

As of June 30, 2006, the City of Ionia had \$21,529,331 in bonds, notes and accumulated vacation and sick time outstanding for the primary government. Of this amount, \$20,198,500 is bonds, \$490,756 is sick and vacation, and \$840,075 is loans and notes (refer to Note G). This level of net obligation is \$467,631 more than the obligation recorded as of June 30, 2005. The increase was due to new loans from equipment purchases and the \$1.5 million utility bond issued by the County Board of Public Works.

Limitations on Debt:

State statute limits the City of Ionia debt obligations to 10 percent of the current state equalized value (SEV) with deductions from the total debt for special assessments, revenue bonds, and transportation bonds. The City of Ionia's SEV as of June 30, 2006 was \$180 million; therefore the City's debt limitation was \$18 million. The City remains below its legal debt limit by \$12.5 million after adjusting the total debt of \$21.7 million by the bonds that are exempt from the calculations. The bonds that are currently outstanding represent a broad range of city-wide improvements to utilities, roads, equipment, street lights, and sidewalks. These capital projects replace outdated equipment and deteriorated infrastructure.

MANAGEMENT'S DISCUSSION AND ANALYSIS

June 30, 2006

CURRENTLY KNOWN FACTS, DECISIONS, OR CONDITIONS & EFFECTS

Through sound financial processes, the City of Ionia continues to provide high quality services to its residents while replacing aging infrastructure. Property tax and utility rates continue to rank among the lowest in West Michigan. These low rates remain attractive to business and industry, resulting in new businesses locating in Ionia while existing businesses grow. Continued business growth translates into increased income tax revenues to the City. The increased business base in the area is beginning to lead to new residential development in the area, adding much needed new homes to the City's aging housing stock.

Over the next few fiscal years, the City will continue its efforts to keep fund expenditures from increasing above the rate of inflation, improve City services while retiring outstanding debt and building fund reserves in many funds.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
STATEMENT OF ACTIVITIES

Year Ended June 30, 2006

Net change in fund balances - total governmental funds **\$ (187,626)**

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Depreciation expense	\$ (1,046,731)	
Capital outlay	<u>166,210</u>	
Excess of depreciation expense over capital outlay		(880,521)

Internal service funds are used by management to charge the costs of certain activities to individual funds.

Increase in Net Assets of Internal Service Funds	101,236	
Depreciation expense of Internal Service Funds included in the total above	103,812	
Capital outlay of Internal Service Funds included in the total above	(84,856)	
Change in long-term liabilities of Internal Service Funds included in the totals below	<u>(2,099)</u>	
		118,093

Repayment of long-term debt and borrowing of long-term debt is reported as expenditures and other financing sources in governmental funds, but the repayment reduces long-term liabilities and the borrowings increase long-term liabilities in the statement of net assets. In the current year, these amounts consist of:

Debt principal retirement	531,707	
Loan proceeds	<u>(75,348)</u>	
		456,359

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. (8,146)

Some items reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds. These activities consist of:

Decrease in accrued interest payable	10,694	
(Increase) in accrued compensated absences	<u>(9,974)</u>	
		<u>720</u>

Change in net assets of governmental activities **\$ (501,121)**

NOTES TO FINANCIAL STATEMENTS

June 30, 2006

NOTE A: DESCRIPTION OF CITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Ionia is located in Ionia County, Michigan and has a population of approximately 10,000. The City of Ionia operates with a City Manager/Council form of government and provides services to its residents in many areas including general government, law enforcement, highways and streets, human services, and utilities services.

The City has eight (8) City Council members who are elected at large for overlapping four (4) year terms, and a Mayor and City Clerk who are elected at large for four (4) year terms. The Council appoints the City Manager, Treasurer, and Assessor.

The financial statements of the City have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) as applied to city governments. The Governmental Accounting Standards Board is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The City's more significant accounting policies are described below.

1. Reporting Entity

As required by accounting principles generally accepted in the United States of America; GASB Statement 14, *The Financial Reporting Entity* (as amended by GASB Statement No. 39); and *Statement on Michigan Governmental Accounting and Auditing No. 5*, these financial statements present the financial activities of the City of Ionia (primary government) and the Downtown Development Authority and Local Development Finance Authority (component units).

The component unit columns in the basic financial statements include the financial data of the City's component units (Downtown Development Authority and Local Development Finance Authority). They are reported in a separate column to emphasize that they are legally separate from the City.

The governing bodies of the Downtown Development Authority and Local Development Finance Authority are appointed by the City Council, their budgets are subject to the approval of the City Council, the City temporarily relinquishes part of its tax base to the Authorities (tax increment revenues), and the City has pledged its full faith and credit towards payment of the Component Units' debt.

The financial statements of the Ionia Building Authority have been blended with the City's Debt Service and Capital Projects Funds.

Based upon the application of these criteria, the basic financial statements of the City of Ionia contain all the funds controlled by the City Council other than the Ionia Housing Commission fund.

The Ionia Housing Commission is a component unit that was established by City Council to provide low rent housing. The financial activity has not been included as part of the City's financial statements in accordance with the provisions of Michigan Committee on Governmental Accounting and Auditing Statement No. 5.

The most recent audited financial statements for the Ionia Housing Commission are for the year ended September 30, 2005. Total assets, liabilities, and equity as of September 30, 2005, were \$4,427,816, \$82,023, and \$4,345,793, respectively. Total revenues, expenses, and net decrease in equity were \$653,762, \$680,337, and \$26,575, respectively.

2. Joint Venture

The City participates in the following activity, which is considered to be a joint venture in relation to the City, due to the formation of an organization by contractual agreement between two (2) or more participants that maintain joint control, financial interest, and financial responsibility.

NOTE A: DESCRIPTION OF CITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

2. Joint Venture - continued

Ionia Area Sewage Disposal System - The City of Ionia, along with the Townships of Easton, Ionia, Berlin, and Orange have entered into an agreement with the County of Ionia, which created the Ionia Area Sewage Disposal System (SDS). The purpose of the SDS is to construct, improve, enlarge, extend, operate, and maintain all sanitary sewers, storm sewers, combined sanitary and storm sewers, plants, and works used in connection with the collection, treatment, or disposal of sewage for the benefit of the constituent municipalities.

The City of Ionia operates, administers, and maintains the SDS on behalf of the County and Townships. The annual budget of the SDS is prepared by the City and adopted by City Council. The proposed budget and allocation of costs are submitted to the County and Townships at least sixty (60) days prior to the beginning of each fiscal year. The Townships have thirty (30) days to advise the City of any objections to the proposed budget and allocations. Objections that cannot be resolved are brought before a review board consisting of one (1) appointed member from each constituent municipality and the County Board of Public Works. All actions of the review board are made by a majority vote.

The allocation of costs of the SDS to the constituent municipalities is based on usage of the system as measured by billable flow. During 1996, the City began to directly bill Ionia Township SDS customers. As a result, the City's allocation of costs includes the portion of costs that had been charged to Ionia Township in the past. On December 1, 2001, the City began to directly bill Easton Township SDS customers for operating costs and fixed asset reserves. As a result, the City's allocation of costs includes a portion of costs that would have been charged to Easton Township in the past. The Township continues to make contributions to SDS to fund their portion of the debt service requirements. For the year ended June 30, 2006, the City contributed \$1,023,955 to cover the City's and Townships' share of operational costs and \$490,412 to cover the City's and Townships' share of principal and interest portions of long-term debt issued by the County for the benefit of the SDS.

Funding of operating costs and the capital asset reserve as based on annual participant usage is currently as follows:

City of Ionia	91.67%
Ionia Township	4.88%
Berlin Township	3.45%

Funding of debt service as based on annual participant usage is currently as follows:

City of Ionia	88.66%
Ionia Township	4.49%
Berlin Township	3.46%
Easton Township	3.39%

The City has not recorded an asset in the Enterprise Fund Type related to SDS due to not having documented an "equity interest" in SDS for accounting purposes. To document an "equity interest", the City would need to document an explicit, measurable right to the net resources of SDS.

The financial activities of the SDS are accounted for and reported separately from the participating units. Separate audited financial statements for the year ended June 30, 2006 are available at the City's administrative offices. The following financial information is a summary of the activity for the year ended June 30, 2006:

3. Basis of Presentation

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The statement of net assets and the statement of activities (the government-wide statements) present information for the primary government and its component units as a whole. All non-fiduciary activities of the primary government are included (i.e., fiduciary fund activities are not included in the government-wide statements). For the most part, interfund activity has been eliminated in the preparation of these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities presents the direct functional expenses of the primary government and its component units and the program revenues that support them. Direct expenses are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. Program revenues are associated with specific functions and include charges to recipients of goods or services and grants and contributions that are restricted to meeting the operational or capital requirements of that function. Revenues that are not required to be presented as program revenues are general revenues. This includes all taxes, interest, and unrestricted State revenue sharing payments and other general revenues and shows how governmental functions are either self-financing or supported by general revenues.

FUND FINANCIAL STATEMENTS

The fund financial statements present the City's individual major funds and aggregated non-major funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and the major individual enterprise fund are reported as separate columns in the fund financial statements.

The major funds of the City are:

- a. The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government except for those that are required to be accounted for in another fund.
- b. The Grant Projects Fund is used to account for grant funded capital projects.
- c. The Sewer System Fund is used to account for the operations required to provide sewer services to the general public, the costs (expenses, including depreciation) are financed or recovered primarily through user charges.
- d. The Water System Fund is used to account for the operations required to provide water services to the general public, the costs (expenses, including depreciation) are financed or recovered primarily through user charges.

FUND FINANCIAL STATEMENTS - CONTINUED

- e. The Dial-A-Ride Fund is used to account for the operations to provide public transportation services to residents of the City of Ionia and the greater Ionia area.

4. Measurement Focus

The government-wide and proprietary fund financial statements are presented using the economic resources measurement focus, similar to that used by business enterprises or not-for-profit organizations. Because another measurement focus is used in the governmental fund financial statements, reconciliations to the government-wide statements are provided that explain the differences in detail.

All governmental funds are presented using the current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

There is no measurement focus for agency funds since assets equal liabilities.

5. Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

All governmental funds are accounted for using the modified accrual basis of accounting. Under this method, revenues are recognized when they become susceptible to accrual (when they become both "measurable" and "available to finance expenditures of the current period"). The length of time used for "available" for purposes of revenue recognition in the governmental fund financial statements is 60 days. Revenues that are considered measurable but not available are recorded as a receivable and deferred revenue. Significant revenues susceptible to accrual are special assessments and certain intergovernmental revenues. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, except for interest on long-term debt which is recorded when due.

All proprietary and similar trust funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

Private-sector standards of accounting and financial reporting issued to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Enterprise Funds are charges to customers for sales and services. Operating expenses for enterprise funds include the costs of sales and services, administrative expenses, and other costs of running the activity. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses. If/when both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

6. Budgets and Budgetary Accounting

The General and Special Revenue Funds' budgets shown as required and other supplementary information were prepared on the same modified accrual basis used to reflect actual results. The City employs the following procedures in establishing the budgetary data reflected in the financial statements.

- a. The City Department heads present proposed departmental operating expenditure budgets to the City Manager for the fiscal year commencing the following July 1.
- b. The City Manager submits to City Council the proposed operating budgets for the fiscal year commencing the following July 1. The operating budgets include proposed expenditures and resources to finance them.
- c. A Public Hearing is conducted to obtain taxpayers' comments.
- d. Prior to July 1, the budget is legally enacted through passage of resolution.
- e. The budget is legally adopted at the total expenditure level for all funds; however, they are maintained at the account level for control purposes. The City Manager is authorized to transfer budgeted amounts between departments within any fund. Any revisions that alter the total expenditures of any fund must be approved by the City Council.
- f. Appropriations unused at June 30 are not carried forward to the following fiscal year.
- g. Budgeted amounts are reported as originally adopted or amended by the City Council during the year. Individual amendments were appropriately approved by the City Council as required.

7. Cash, Cash Equivalents, and Investments

The City pools cash resources of various funds in order to facilitate the management of cash. Cash applicable to a particular fund is readily identifiable. The balances in the pooled cash accounts are available to meet current operating requirements. Cash in excess of current requirements is invested in various interest bearing securities and pooled investment accounts. Cash equivalents consist of temporary investments in mutual funds and certificates of deposit with original maturities of 90 days or less.

Investments include certificates of deposit with original maturities of greater than 90 days from the date of purchase. All certificates of deposit are stated at cost, which approximates market value.

8. Property Tax

The City of Ionia bills and collects its own property taxes and also taxes for other governmental units. The City's property tax revenue recognition policy and related tax calendar disclosures are highlighted in the following paragraph:

Property taxes are levied by the City of Ionia on July 1 and December 1 and are payable without penalty through July 31 and February 14, respectively. The July 1 levy is composed of the City's millage, 2/3 of the County's millage, special assessments, and school taxes. The December 1 levy is composed of 1/3 of the County's millage and school taxes. All real property taxes not paid to the City by March 1 are turned over to the Ionia County Treasurer for collection. The Ionia County Treasurer purchases the receivables of all taxing districts on any delinquent real property taxes. Delinquent personal property taxes receivable are retained by the City for subsequent collection. Collections and remittances of all taxes are accounted for in the Tax Account Agency Fund. City property tax revenues are recognized as revenues in the fiscal year levied.

NOTES TO FINANCIAL STATEMENTS

June 30, 2006

NOTE A: DESCRIPTION OF CITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

8. Property Tax - continued

The City is permitted by ordinance to levy taxes up to 15 mills (\$15 per \$1,000 of taxable valuation) for general governmental services other than the payment of Debt Service Fund expenditures. For the year ended June 30, 2006, the City levied 3.00 mills per \$1,000 of taxable valuation for general governmental services. In addition, the City levied 1.75 mills for environmental clean-up debt service, 2.00 mills for Public Safety, and .7492 mills for Dial-A-Ride services.

9. Income Tax Revenues

In accordance with GASB Statement No. 22, *Accounting for Taxpayer - Assessed Tax Revenues in Governmental Funds*, the City has recognized taxpayer-assessed taxes, net of estimated refunds, as revenue in the accounting period in which they become susceptible to accrual (i.e., measurable and available to finance expenditures of the fiscal period). The City has calculated this amount based on the income tax collections and refunds made within 60 days after year-end that relate to the prior years.

In 1994, the residents of the City voted for an income tax in an effort to reduce the millage levied for property taxes. As a result, the millage levied for governmental services was reduced significantly down to 3.0000 mills.

10. Inventories

The cost of inventory items in governmental funds is recorded as an expenditure at the time of purchase. Inventories in the Enterprise Funds consist of operating materials and supplies, which are stated at cost on a first-in/first-out basis.

11. Accrued Vacation and Sick Leave

City employees are granted vacation and sick leave in varying amounts. In the event of termination, an employee with more than one (1) year of service is paid for accumulated vacation days, with certain groups of employees only being able to accumulate up to the equivalent of twenty-one (21) days of vacation. Upon termination employees with more than six (6) months of service are paid for one-half of accumulated sick leave, not to exceed 480 hours.

The cost of the accumulated vacation, including related payroll taxes, is recorded entirely in the government-wide financial statements.

12. Interfund Transactions

During the course of normal operations, the City has numerous transactions between funds, including expenditures and transfers of resources to provide services, construct assets, and service debt. The accompanying financial statements generally reflect such transactions as transfers.

The Internal Service Fund (Central Garage) records charges for services provided to various City departments and funds as operating revenue. All City funds record these payments as operating expenditures/expenses.

NOTES TO FINANCIAL STATEMENTS

June 30, 2006

NOTE A: DESCRIPTION OF CITY AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

13. Capital Assets

PRIMARY GOVERNMENT AND COMPONENT UNITS

Capital assets include land and improvements, buildings, furniture and equipment, vehicles, and infrastructure and are recorded (net of accumulated depreciation, if applicable) in the government-wide financial statements under the governmental activities, business-type activities, and component unit columns. Capital assets are those with an initial individual cost of \$5,000 or more and an estimated useful life of more than one year. Capital assets are not recorded in the governmental funds. Instead, capital acquisition and construction are reflected as expenditures in governmental funds, and the related assets are reported in the government-wide financial statements. All purchased capital assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated fair market value on the date received.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Depreciation is computed using the straight-line method over the following useful lives:

Structures and improvements	20 - 75 years
Machinery, furniture, and equipment	5 - 50 years
Vehicles	5 years
Infrastructure	20 - 30 years

14. Long-Term Obligations

Long-term debt and other long-term obligations are recognized as a liability in the government-wide financial statements and proprietary fund types when incurred. The portion of those liabilities expected to be paid within the next year is a current liability with the remaining amounts shown as long-term.

Long-term debt is recognized as a liability of a governmental fund when due or when resources have been accumulated in a Debt Service Fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund.

15. Comparative Data

Comparative data has not been presented in the accompanying financial statements since their inclusion would make the statements unduly complex and difficult to read.

16. Federal Programs

Federal programs are accounted for in the General, Capital Projects, and Enterprise Funds. The City was required to have a Single Audit under OMB Circular A-133 because expenditures of Federal award programs administered by the City exceeded the necessary threshold. The single audit reports are issued under separate cover.

NOTE B: POOLING OF CASH AND CASH EQUIVALENTS

The City's governmental funds balance sheet and statement of net assets reflect cash and cash equivalents with a negative balance. These amounts do not represent actual bank overdrafts; rather, they merely reflect that specific funds have disbursed amounts from the City's common checking account in excess of the amount recorded as an asset. In total, the bank account has a positive balance.

NOTES TO FINANCIAL STATEMENTS

NOTE C: CASH, CASH EQUIVALENTS, AND INVESTMENTS

The City deposits consist of a common checking account and various savings accounts, checking accounts, pooled investment accounts, and certificates of deposit maintained by individual funds and are reported as cash and cash equivalents and investments on the basic financial statements.

In accordance with Michigan Compiled Laws, the City is authorized to invest in the following investment vehicles:

- Bonds, securities, and other obligations of the United States or an agency or instrumentality of the United States.
- Certificates of deposit, savings accounts, deposit accounts, or depository receipts of a State or nationally chartered bank or a State or Federally chartered savings and loan association, savings bank, or credit union whose deposits are insured by an agency of the United States government and which maintains a principal office or branch office located in this State under the laws of the State of the United States, but only if the bank, savings and loan association, savings bank, or credit union is eligible to be a depository of surplus funds belong to the State under Section 5 or 6 of Act No. 105 of the Public Acts of 1855, as amended, being Section 21.145 and 21.146 of Michigan Compiled Laws.
- Commercial paper rated at the time of purchase within the three (3) highest classifications established by not less than two (2) standard rating services and which matures not more than 270 days after the date of purchase.
- The United States government or federal agency obligations repurchase agreements.
- Bankers' acceptances of United States banks.
- Mutual funds composed of investment vehicles, which are legal for direct investment by local units of government in Michigan.

NOTES TO FINANCIAL STATEMENTS

June 30, 2006

NOTE C: CASH, CASH EQUIVALENTS, AND INVESTMENTS - CONTINUED

Federal Deposit Insurance Corporation (FDIC), Federal Savings and Loan Insurance Corporation (FSLIC), and the National Credit Union Administration (NCUA) regulations provide that deposits of governmental units are to be separately insured for the amount of \$100,000 for deposits in an insured bank for savings deposits and \$100,000 for demand deposits. Furthermore, if specific deposits are regulated by statute or bond indenture, these specific deposits are to be separately insured for the amount of \$100,000. Michigan Compiled Laws allow collateralization of government deposits, if the assets for pledging are acceptable to the State Treasurer under Section 3 of 1855 PA 105, MCL 21.143, to secure deposits of State surplus funds, securities issued by the Federal Loan Mortgage Corporation, Federal National Mortgage Association, or Government National Mortgage Association.

Deposits

As of June 30, 2006, the carrying amounts and bank balance for each type of account as reported in the cash, cash equivalents, and investments caption in the basic financial statements are as follows:

<u>Account Type</u>	<u>Carrying Amount</u>	<u>Bank Balance</u>
Checking	\$ 232,103	\$ 735,712
Savings and money markets	588,373	588,373
Certificates of deposit	<u>419,103</u>	<u>419,103</u>
	<u>\$ 1,239,579</u>	<u>\$ 1,743,188</u>

The cash and cash equivalents reported in the basic financial statements include \$1,000 in imprest cash.

Deposits of the City are at federally insured banks located in the State of Michigan with all accounts maintained in the name of the City. As of June 30, 2006, the City accounts were insured by the FDIC and NCUA for \$393,605 and the amount of \$1,349,583 was uninsured and uncollateralized.

Investments

As of June 30, 2006, the City had the following investments:

<u>INVESTMENT TYPE</u>	<u>Carrying Amount</u>	<u>Market Value</u>	<u>Weighted Average Maturity</u>
PRIMARY GOVERNMENT			
Federal Home Loan Mortgage Corporation	\$ 716,816	\$ 716,816	25 months
Uncategorized pooled investment	<u>250,367</u>	<u>250,367</u>	< 12 months average
	<u>\$ 967,183</u>	<u>\$ 967,183</u>	

Credit risk

State law limits investments in certain types of investments to a prime or better rating issued by nationally recognized statistical rating organizations (NRSRO's). As of June 30, 2006, the City's investments were rated AAA by Standard and Poor's.

Interest rate risk

The City will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by:

NOTES TO FINANCIAL STATEMENTS

June 30, 2006

NOTE C: CASH, CASH EQUIVALENTS, AND INVESTMENTS - CONTINUEDInterest rate risk - continued

Structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities on the open market prior to maturity, and investing operating funds primarily in shorter-term securities, money market mutual funds, or similar investment pools and limiting the average maturity of the portfolio.

Concentration of credit risk

The City will minimize credit risk, which is the risk of loss due to the failure of the security issuer or backer, by:

Limiting investments to the types of securities listed in the "Authorized Investments" section; pre-qualifying the financial institutions, broker/dealers, intermediaries, and advisers with which the City will do business in accordance with the "Authorized Institutions" section; and diversifying the investment portfolio so that the impact of potential losses from any one type of security or from any one individual issuer will be minimized.

The cash, cash equivalents, and investments referred to above have been reported in either the cash and cash equivalents or investments captions on the basic financial statements, based on criteria disclosed in Note A. The following summarizes the categorization of these amounts as of June 30, 2006.

	<u>Primary Government</u>	<u>Component Units</u>	<u>Fiduciary Fund</u>	<u>Reporting Entity</u>
Cash and cash equivalents	\$ 1,563,761	\$(337,064)	\$ 6,822	\$ 1,233,519

	<u>\$ 2,538,004</u>	<u>\$(337,064)</u>	<u>\$ 6,822</u>	<u>\$ 2,207,762</u>

The amounts identified above include Enterprise Fund restricted cash and investments of \$959,243 and \$15,000, respectively, as of June 30, 2006, to be used to fund Water System and Sewer System improvements and bond and interest redemption.

NOTE D: INTERFUND RECEIVABLES AND PAYABLES

The following schedule details primary government interfund receivables and payables at June 30, 2006:

Due to General Fund from:	
Dial-A-Ride	\$ 693
Nonmajor governmental funds	<u>5,274</u>
	5,967
Due to Grant Projects Fund from:	
Sewer System Fund	117,099
Water System Fund	<u>134,867</u>
	<u>251,966</u>
	<u>\$ 257,933</u>

Amounts appearing as interfund payables and receivables arise from two types of transactions. One type of transaction is where a fund will pay for a good or service that at least a portion of the benefit belongs to another fund. The second type of transaction is where one fund provides a good or service to another fund. Balances at the end of the year are for transfers that have not cleared as of the balance sheet date.

City of Ionia

NOTES TO FINANCIAL STATEMENTS

NOTE E: INTERFUND TRANSFERS

Permanent reallocation of resources between funds of the reporting entity is classified as interfund transfers. For the purpose of the statement of activities, all interfund transfers between individual governmental funds, business-type funds and component units have been eliminated.

Transfers to General Fund from:	
Nonmajor governmental funds	\$ 17,301
Transfers to nonmajor governmental funds from:

Accumulated Vacation and Sick

Individual employees have vested rights upon termination of employment to receive payments for unused vacation and sick leave, and also receive an annual longevity payment. The dollar amounts of these vested rights have been recorded in the government-wide financial statements. They amount to approximately \$490,756 at June 30, 2006. Of this amount, \$33,962 and \$12,951 are recorded as liabilities within the Enterprise and Internal Service fund types, respectively, in accordance with criteria disclosed in Note A.

NOTE G: LONG-TERM DEBT - CONTINUED

Advance Refunding - Prior

On May 15, 1997, the City defeased the portion of the 1990 G.O. Downtown Development Authority Bonds which were due and payable May 1, 2001 through May 1, 2010 and a portion of the 1991 G.O. Downtown Development Authority Bonds, which are due and payable May 1, 2001, through May 1, 2010. This was accomplished by establishing an irrevocable trust with an escrow agent composed of cash and U.S. Government Securities sufficient to meet the applicable principal and interest obligations. The City issued General Obligation 1998 Downtown Development Authority Refunding Bonds in the amount of \$4,005,000 to provide resources to fund the escrow amounts and pay the costs of issuance of the refunding bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the City's financial statements. At June 30, 2006, bonds due and payable May 1, 2007 through May 1, 2010 for the 1990 and 1991 G.O. Downtown Development Authority Bonds in the amounts of \$210,000 and \$1,550,000, respectively, are considered defeased.

On November 24, 1998, the City defeased a portion of the 1994 G.O. Downtown Development Authority Bonds, which are due and payable November 1, 2006 through November 1, 2014. This was accomplished by establishing an irrevocable trust with an escrow agent composed of cash and U.S. Government securities sufficient to meet the applicable principal and interest obligations. The City issued General Obligation Downtown Development Authority Refunding bonds in the amount of \$3,835,000 to provide resources to fund the escrow amounts and pay the costs of the refunding bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the City's financial statements. At June 30, 2006, bonds due and payable November 1, 2006 through November 1, 2014 for the 1994 G.O. Downtown Development Authority bonds in the amount of \$2,995,000 are considered defeased.

NOTE H: RETIREMENT PLAN

Plan Description

The City participates in the Michigan Municipal Employees Retirement System, an agent multiple-employer defined benefit pension plan that covers all eligible full-time employees of the City. The system provides retirement, disability, and death benefits to plan members and their beneficiaries. The Michigan Municipal Employees Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the system. That report may be obtained by writing to the System at 1134 Municipal Way, Lansing, Michigan 48917.

Funding Policy

The obligation to contribute to and maintain the system for these employees was established by the City Council and by negotiation with the City's collective bargaining units. The plan requires no contribution from the employees.

Annual Pension Cost

For year ended June 30, 2006 the City's annual pension cost of \$529,600 for the plan was equal to the City's required and actual contribution. The estimated annual required contribution was determined as part of an actuarial valuation at December 31, 2003, using the entry actual age cost method. Actual required contributions are based on actual reported monthly payroll. Significant actuarial assumptions used include (a) an 8.00 percent investment rate of return (b) projected salary increases of 4.5 percent per year compounded annually, attributable to inflation (c) additional salary increases ranging from 0% to 8.4% per year depending on age, seniority and merit, and (d) assumption benefits will not increase after retirement. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility over a four (4) year period. The unfunded actuarial liability is being amortized as a level percentage of payroll over a period of thirty years.

NOTE I: DEFERRED COMPENSATION PLAN

The City of Ionia offers its employees a choice of one (1) of three (3) deferred compensation plans. The plans sponsored by the ICMA Retirement Corporation, Nationwide Retirement Solutions, and Prudential Retirement Services were created in accordance with IRC Section #457. The plans, available to all City employees, permit them to defer a portion of their current salary until future years. The deferred compensation is not available to the employees until termination, retirement, death, or unforeseeable emergency.

Legislative change has been made to 457 plans which mandates that by no later than January 1, 1998, all existing 457 plan assets must be held in a custodial account, trust, or annuity contract for the benefit of participants and their beneficiaries.

Once a trust, custodial account, or annuity contract exists, assets are owned or held by the trust, custodian, or insurer for the exclusive benefit of participants and beneficiaries, and are not subject to the claims of public employers creditors nor can they be used by the public employer for any purpose other than the payment of benefits to these individuals participating in the plan or their designated beneficiaries. The ICMA Retirement Corporation and Public Employees Benefit Services Corporation have elected to implement compliance with the new requirement effective January 1, 1998. The plans assets previously maintained in an Agency Fund are no longer reported by the City because the new legislation has eliminated the requirements that Section 457 plan assets legally remain the assets of the sponsoring government.

NOTE J: RISK MANAGEMENT

The City participates in a State pool, the Michigan Municipal Liability and Property Pool, with other municipalities for property, liability, bonding, and casualty losses. The pool is organized under Public Act 138 of 1982, as amended. The City has no liability for additional assessments based on the claims filed against the pool nor do they have any right to dividends.

The City also participates in a pool, the Michigan Municipal Workers' Compensation Fund, with other municipalities for workers' compensation losses. The pool is organized under Public Act 317 of 1969, as amended. The City has no liability for additional assessments based on the claims filed against the pool nor do they have any right to dividends.

NOTES TO FINANCIAL STATEMENTS

June 30, 2006

NOTE M: CONTINGENT LIABILITIES

The City is a responsible party with respect to clean-up costs at the Cleveland Street Dump Site. The City is party to a Federal Consent Decree entered with the District Court during the fiscal year ended June 30, 2002. The terms of the Consent Decree limit the City's liability to a share of the clean-up costs associated with existing contamination as of the date of the decree. The City has received reimbursement costs related to clean up of this site through the Clean Michigan Initiative (CMI), however a reasonable estimate of the City's remaining potential liability cannot be determined at this time.

There is other legal action pending against the City. Due to the inconclusive nature of the action, it is not possible for Corporation Counsel to determine the probable outcome or a reasonable estimate of the potential liability, if any. This potential liability, if any, is considered by City Management and legal counsel to be immaterial or the potential liability would be covered by insurance.

NOTE N: FUND DEFICITS

The following fund has a fund equity deficit at June 30, 2006:

COMPONENT UNIT FUNDS

Downtown Development Authority	\$ 342,682
--------------------------------	------------

The City previously filed a deficit elimination plan with the State Department of Treasury for the Downtown Development Authority Fund. The State has approved that plan and the City is in compliance with the plan as of June 30, 2006.

NOTE O: CONTRACTUAL COMMITMENTS

The City has entered into various street project contracts related to infrastructure improvements that were not completed at June 30, 2006. The total contractual commitments outstanding at June 30, 2006 totaled \$832,393. The City will have bond proceeds to cover these commitments.

NOTE P: EXCESS OF EXPENDITURES OVER APPROPRIATIONS

Michigan Public Act 621 of 1978, Sections 18 and 19, as amended, provides that a local governmental unit not incur expenditures in excess of the amounts appropriated. The approved budgets of the City have been adopted at the total expenditure level for the General and Special Revenue Funds.

During the year ended June 30, 2006, the City incurred expenditures in the Special Revenue Funds in excess of the amounts appropriated as follows:

	<u>Amounts Appropriated</u>	<u>Amounts Expended</u>	<u>Variance</u>
Major Street	\$ 512,576	\$ 543,890	\$ 31,314

THE STATEMENT OF NET ASSETS - DOWNTOWN DEVELOPMENT AUTHORITY

June 30, 2006

Total fund balance - governmental fund \$ (342,682)

Amounts reported for the governmental activities in the statement of net assets are different because:

Capital assets used in governmental activities are not financial resources
and therefore are not reported as assets in the governmental funds.

The cost of capital assets is 375,256

Long-term receivables are not available to pay for current period expenditures
and are therefore deferred in the funds. These consist of:

Deferred revenue 9,092

Long-term liabilities are not due and payable in the current period
and therefore are not reported as liabilities in the funds.
Long-term liabilities at year-end consist of:

Accrued interest payable	39,558

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Honorable Mayor and
Members of the City Council
City of Ionia
Ionia, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Ionia, Michigan as of and for the year ended June 30, 2006, which collectively comprise the City's basic financial statements and have issued our report thereon dated September 21, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered City of Ionia's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the basic financial statements and not to provide an opinion on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a reportable condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements caused by error or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Ionia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of basic financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the City of Ionia, Michigan, in a separate letter dated September 21, 2006.

This report is intended solely for the information and use of management and the City Council of the City of Ionia, Michigan, Federal awarding agencies, and pass-through entities, and is not intended to be and should not be used by anyone other than these specified parties.

MANAGEMENT LETTER

To the Honorable Mayor and
Members of the City Council
City of Ionia
Ionia, Michigan

As you know, we have recently completed our audit of the records of the City of Ionia, Michigan as of and for the year ended June 30, 2006. In connection with the audit, we feel that certain changes in your accounting and administrative procedures would be helpful in improving management's control and the operational efficiency of the accounting and administrative functions. These suggestions are a result of our evaluation of the internal control and our discussions with management.

1. The City should monitor and amend budgets when necessary.

As noted in the annual financial statements, some of the budgeted activities of the City exceeded the amounts appropriated. The variances noted were in two (2) Special Revenue Funds.

The Michigan Public Act 621 of 1978, as amended, provides that the City shall not incur expenditures in excess of the amounts appropriated.

We suggest the City monitor expenditures against the adopted budget on a periodic basis, preferably monthly. Appropriate budget amendments should be adopted by Council as needed.

2. The City should review the status of individual fund balances (deficits) near year-end.

The City had one (1) fund (component unit DDA Fund) that ended the year in a deficit financial position. As discussed in Note N to the financial statements, the City has previously filed a deficit elimination plan with the State Department of Treasury for this fund. The State has approved that plan and the City remains in compliance with the plan as of June 30, 2006. However, the City will likely be required to submit an update to the plan, such as a declaration of continued commitment, to the State of Michigan.

We suggest the City continually review the status of individual funds near year-end and make appropriate adjustments when possible to eliminate deficits.

3. The City should ensure that all of its bank accounts have the same Employer Identification Number.

During the course of the audit, it was noted that the Ionia Theatre's Employer Identification Number (EIN) is different than the City's. The City's management was previously unaware of this issue and will be discussing this issue with the Theatre during the fiscal year to work on changing the Employer Identification Number of the Theatre to that of the City.

These conditions were considered in determining the nature, timing, and extent of the audit tests to be applied in our audit of the basic financial statements, and this report does not affect our report on the financial statements dated September 21, 2006.

This report is intended solely for the information of management, the Mayor, and members of the City Council of the City of Ionia and is not intended to be, and should not be, used by anyone other than these specified parties.

We wish to express our appreciation for the courtesy and cooperation extended to us during our audit. We are available to discuss this suggestion with you and to provide assistance in the implementation of improvements.
